

INDEX TO VOLUME 27, 1984

AUTHORS

BAER, T. (see LISKER, L.)	163
BAPTISTA, B.O. English stress rules and native speakers	217
BARRY, W.J. Segment of syllable? A reaction-time investigation of phonetic processing	1
BEATTIE, Geoffrey. "Are there cognitive rhythms in speech?" – A reply to Power (1983)	193
BERKOVITS, Rochele. A perceptual study of sentence-final intonation	291
BOND, Ronald N. (see WELKOWITZ, Joan)	173
BULL, Deborah (see LOEWENTHAL, Kate)	95
CARROLL, John M. The name game: Creative and practical names for a building	99
CLIFFORD ROSE, F. (see HADAR, U.)	333
COBERLY, Mary Schramm. Accessibility of place and manner features and the place/manner dissimilation principle in a learning task	307
COOPER, William E. Clausal intonation after unilateral brain damage	17
COTTER, Carole A. Inferring indirect objects in sentences: Some implications for the semantics of verbs	25
DE BOT, K. (see WELTENS, B.)	79
FELDSTEIN, Stanley (see WELKOWITZ, Joan)	173
FINN, Alice Nancy. Intonational accompaniments of Japanese morphemes <i>Wa</i> and <i>Ga</i>	47
FRANCO, Fabia. Differences in manner of phonation of infant cries: Relationship to communicative context	59
GOLOSKIE, Susan (see COOPER, William E.)	17
GREEN, Michael. Cognitive stage differences in types of speaker uncertainty markers	323
HADAR, U. The relationship between head movements and speech dysfluencies	333
HEALY, Alice F. (see COBERLY, Mary Schramm)	307
HIEKE, A.E. Linking as a marker of fluent speech	343
HOLMES, V.M. Sentence planning in a story continuation task	115
KLECAN-AKER, Joan S. A study of the syntactic skills of normal middle-school males and females	205
KUWABARA, Hisao. Experiments on voice qualities of vowels in males and females and correlation with acoustic features	135
LEVIN, Harry. Nurturant talk to children	147
LISKER, L. Laryngeal management at utterance-internal word boundary in American English	163
LISKER, Leigh. How is the aspiration of English /p, t, k/ "predictable"?	391
LOEWENTHAL, Kate. Imitation of foreign sounds: What is the effect of age?	95
MICHELOW, Diane (see COOPER, William E.)	17
NICOL, Janet (see COOPER, William E.)	17
NORRIS, Dennis. Comprehension strategies and lexical priming	355
OHGUSHI, Kengo (see KUWABARA, Hisao)	135
OWINGS, Nathaniel O. (see SCHERER, Nancy J.)	255
PEACH, S. (see WARDRIP-FRUIN, C.)	367
POWER, M.J. "Are there cognitive rhythms in speech?" – A reply to Beattie (1984)	197
RAGSDALE, J. Donald. Hesitation phenomena in the spontaneous speech of normal and articulatory-defective children	235
REPP, Bruno H. Closure duration and release burst amplitude cues to stop consonant manner and place of articulation	245
SCHERER, Nancy J. Learning to be contingent: Retarded children's responses to their mothers' requests	255
SISTERHEN, Daniel H. (see RAGSDALE, J. Donald)	235

ZIFCAK, Michael. Representation of nasality in children's non-standard spellings ...	89

PAPERS

Accessibility of place and manner features and the place/manner dissimilation principle in a learning task. Mary Schramm Cobley and Alice F. Healy ...	309
"Are there cognitive rhythms in speech?" – A reply to Beattie (1984). (Letters to the Editor). M.J. Power ...	197
"Are there cognitive rhythms in speech?" – A reply to Power (1983). (Letters to the Editor). Geoffrey Beattie ...	193
Clausal intonation after unilateral brain damage. William E. Cooper, Carlos Soares, Janet Nicol, Diane Michelow and Susan Goloskie ...	17
Closure duration and release burst amplitude cues to stop consonant manner and place of articulation. Bruno H. Repp ...	245
Cognitive stage differences in types of speaker uncertainty markers. Michael Green ...	323
Comprehension strategies and lexical priming. Dennis Norris ...	355
Conversational time patterns of Hawaiian children as a function of ethnicity and gender. Joan Welkowitz, Ronald N. Bond and Stanley Feldstein ...	173
Developmental aspects of the perception of acoustic cues in determining the voicing feature of final stop consonants. C. Wardrip-Fruin and S. Peach ...	361
Differences in manner of phonation of infant cries: Relationship to communicative context. Fabia Franco ...	59
Distribution of pitch accents in instructions as a function of discourse structure. J.M.B. Terken ...	269
English stress rules and native speakers. B.O. Baptista ...	217
Experiments on voice qualities of vowels in males and females and correlation with acoustic features. Hisao Kuwabara and Kengo Ohgushi ...	135
Hesitation phenomena in the spontaneous speech of normal and articulatory-defective children. J. Donald Ragsdale and Daniel H. Sisterhen ...	235
How is the aspiration of English /p, t, k/ "predictable"? (Letter to the Editor). Leigh Lisker ...	391
Imitation of foreign sounds: What is the effect of age? Kate Loewenthal and Deborah Bull ...	95
Inferring indirect objects in sentences: Some implications for the semantics of verbs. Carole A. Cotter ...	25
Intonational accompaniments of Japanese morphemes <i>Wa</i> and <i>Ga</i>. Alice Nancy Finn ...	47
Laryngeal management at utterance-internal word boundary in American English. L. Lisker and T. Baer ...	163
Learning to be contingent: retarded children's responses to their mothers' requests. Nancy J. Scherer and Nathaniel O. Owings ...	255
Linking as a marker of fluent speech. A.E. Hieke ...	343

Name game: Creative and practical names for a building. John M. Carroll	99
Nurturant talk to children. Harry Levin, Catherine Snow, Kathie Lee	147
Peak intraoral air pressure in [p] as a function of F_0 in Chinese. Eric Zee	381
Perceptual study of sentence-final intonation. Rochele Berkovits	291
Relationship between head movements and speech dysfluencies. U. Hadar, T.J. Steiner and F. Clifford Rose	333
Representation of nasality in children's non-standard spellings. (Letter to the Editor). Michael Zifcak	89
Segment or syllable? A reaction-time investigation of phonetic processing. W.J. Barry	1
Sentence planning in a story continuation task. V.M. Holmes	115
Study of the syntactic skills of normal middle-school males and females. Joan S. Kiecan-Aker	205
Visual feedback of intonation II: Feedback delay and quality of feedback. B. Weltens and K. de Bot	79
